

# The garagegear solution

RedLine garagegear cabinets offer the finest garage and workshop organizer system available. From their wall-hung design to their attractive and extremely durable powder-coated finish, these storage cabinets set the standard. And, unlike big-box store solutions, RedLine garagegear is built to last. In fact, our RedLine storage cabinets are guaranteed for a lifetime\*.

Available in a wide variety of styles, sizes and choice of colors, these cabinets will enhance any garage, workshop or utility room. And accessories like storage walls and overhead storage racks will complete your perfect space.

\* RedLine Workbench Cabinets and Slimline Cabinets with powder-coated finishes are guaranteed for life. See details on the inside back cover of this catalog.

## The garagegear Difference

What separates garagegear from its competitors? Here are some of the major reasons garagegear is different (and better).

### Powder-coated exterior surfaces

Only RedLine powder-coats all cabinet exterior surfaces, creating a finish that outperforms plastic, paint or laminate, and resists chipping, denting, peeling or warping, making it perfect for the typical garage environment.

We use medium density MDF board for doors, drawer fronts and panels because of its strength and smooth, uniform surface. We spray all surfaces with an electrostatically-charged powdered mixture and then heat the piece, causing the powder to gel and flow, bonding to the surface and completely sealing the piece. The resulting finish is as attractive as it is durable.

And the process is environmentally friendly, containing no heavy metals, solvents or VOCs.

### Off-the-floor storage solutions

All garagegear solutions hang above the floor, keeping everything high, dry and level, with everything in easy reach, freeing limited floor space.

### Professional installation

All garagegear is installed by certified professionals. You choose the solution, we do the work. No follow-the-instructions nightmare or do-it-yourself assembly!

### Industry-leading versatility

Other companies may give you several cabinet choices...we give you more than 300. And, with a choice of colors, styles and sizes, we can create a solution to fit almost any need.

No matter which solution you choose, our goal is to make everything easy for you, from installation to maintenance.

### Easy to install

RedLine garagegear is sold and installed only by factory trained and certified Agents. We'll come to you and design a custom solution just for you, order the materials and install the product. You can be sure everything will work right...the first time. Nothing for you to do but put your stuff away and enjoy your new space.

### Easy to organize and use

From the start, you'll notice these cabinets are a pleasure to use. From smooth gliding full-extension drawers to wide opening doors, these cabinets are easy to organize and keep organized. And speciality cabinets for tools and small parts keep everything in its place, for you to easily find things next time you need them.

### Easy to maintain

A simple damp cloth will wipe away most common dirt. Stubborn grime, such as grease or oil, can be cleaned with most household cleaners. The tough finish and work surfaces can withstand almost any cleaner or solvent. Finally, the off-the-floor design makes it easy to clean beneath and around the cabinets.

### Industry-leading warranties

Garagegear cabinets carry a Lifetime Warranty\*, ensuring years of service. You won't find warranties like these on any competitive products.

### Garagegear looks great!

Cabinets are available in your choice of finishes and several rich colors that look great and blend with any décor. And the durable, easy-to-clean finishes stay that way.

### Quality materials built-to-last

High-quality materials and heavy-duty hardware ensure your garagegear will give you years of dependable service. We build the quality in before we hang it in your garage.
